

SPC Programme in Niue

01/01/2016 - 31/12/2016

The following table lists key work areas that SPC is undertaking in 2016 cooperation with Niue. The country-specific work listed here complements other SPC work undertaken at a regional level to benefit the people of Niue and achieve its national development priorities. SPC's key regional work is presented in the Pacific Community Results Report.

SPC expected contribution to national development goals			
Expected long term result (impact)	Expected medium term result (outcome)	Status	Outputs taking place or expected to commence this year
National Level Work			
Pacific Communities are Empowered and Resilient			
Fisheries, Aquaculture and Marine Ecosystems			
Improved management of coastal fisheries	Enhanced community-based approaches & national management arrangements, incorporation of ecosystem-based principles, and coastal fisheries legislation	On Track	Assistance and advice provided in national policy development for regulations, legislation reviews and/ management arrangements
Pacific Island people reach their potential and lead long and healthy lives			
Education and Quality Assessment Programme			
Improved quality of education	Raising of students achievements in literacy and numeracy	On Track	Technical assistance provided in the assessment and monitoring of literacy, numeracy, and life skills in the Pacific
Gender, Human Rights, and Culture			
Enhanced development for all Pacific peoples through increasing the observance of all human rights and good governance	Government and Civil Society Organisation (CSO) service providers have strengthened capacity to effectively serve women affected by Violence Against Women	On Track	Technical assistance provided to Family Law national consultation
Increased development potential of Pacific Island people in culture and enhanced empowerment of women and young people	Integrated approach to human development fostered at regional and national levels	On Track	Four-year workplan on progressing gender equality and mainstreaming developed and attached to signed memorandum of understanding

SPC expected contribution to national development goals			
Expected long term result (impact)	Expected medium term result (outcome)	Status	Outputs taking place or expected to commence this year
The Pacific region and its people benefit from inclusive and sustainable economic growth			
Energy Services			
Sustainable economic development through accessible, affordable, efficient, secure and safe energy services	Strong leadership in the Pacific's energy sector, with good governance, effective multi-sectoral coordination and strategic partnerships, including monitoring and evaluation	On Track	Climate Change Adaptation (CCA) and Sustainable Energy (SE) training networks strengthened
		On Track	Developed course and unit descriptors for CCA and SE; At least 10 trainers trained on Training-of-Trainers (TOT) courses
Fisheries, Aquaculture and Marine Ecosystems			
Improved management of oceanic fisheries	Enhanced national oceanic fishery data management to meet national requirements and international obligations	Completed	New SPC-developed Artisanal Module for the Tuna Fisheries Database Management System (TUFMAN-2) installed
	National tuna oceanic fisheries policy and decision-making are informed by the best science-based stock assessments and advice	On Track	Scientific analyses provided to inform national tuna longline fishery management plans for Niue
Increased contribution of fisheries to food security and livelihoods	To develop sustainable nearshore fisheries in PICTs to provide food security, livelihoods, and economic growth and climate change adaptation	On Track	Strengthened fish aggregating device (FAD) programme
Land Resources			
Enhanced sustainable land, agriculture and forestry resource management	Increased capacity of sustainable land and forest management	On Track	Code of logging practice and forest management plan implemented; Strategies and mechanism for effective implementation of code of logging practices developed
		Delayed	On farm demonstrations conducted to build capacity of producer organisations to support young farmers enter markets; Farmer field school workshops conducted to build capacity of young farmers to enter markets; Knowledge sharing on resilient agriculture through development of audio visual training materials; Young people are trained to provide technical production and marketing support through ICTs and social media

SPC expected contribution to national development goals			
Expected long term result (impact)	Expected medium term result (outcome)	Status	Outputs taking place or expected to commence this year
	Increased capacity of PICTs to meet standards, guidelines, and conditions for exports and domestic trade	On Track	Fruit fly surveillance support provided
	Increased availability and better access to traditional and improved crop and animal diversity	On Track	Pig and chicken animal genetic resources development and conservation
Statistics for Development			
Pacific national and regional statistics are accessible and are being utilised	PICTs have the technical capacity to manage and implement all core statistical collections, including key administrative databases, as required by national development plans, including national strategies for the development of statistics	On Track	Completed field monitoring and data editing and tabulation for Household Income and Expenditure Survey (HIES)
