

## SPC Programme in Wallis and Futuna

01/01/2016 - 31/12/2016

The following table lists key work areas that SPC is undertaking in 2016 cooperation with Wallis and Futuna. The country-specific work listed here complements other SPC work undertaken at a regional level to benefit the people of Wallis and Futuna and achieve its national development priorities. SPC's key regional work is presented in the Pacific Community Results Report.

SPC expected contribution to national development goals			
Expected long term result (impact)	Expected medium term result (outcome)	Status	Outputs taking place or expected to commence this year
<b>National Level Work</b>			
<b>Pacific communities are empowered and resilient</b>			
<b>Climate Change and Environmental Sustainability</b>			
Increased capacity to effectively manage the risks presented by climate change and disasters	Integrated coastal zone management actions implemented	On Track	Identifying water catchment protection area boundaries (4 wells – Environment Dept. responsibility - (SDAGE water development and management plan); understanding water table dynamics and study on run-off speeds and directions
		On Track	Exporting long-standing used oil and batteries stocks; two service providers collaborating to find a more appropriate and sustainable solution
		On Track	Permanently closing and rehabilitating Nanu'u (uncontrolled dump, now saturated) Backfilling, replanting, rat removal underway. Transfer dumpsters, information signs; Goal to set up sectors (selective sorting)
		On Track	Integrated management plans : signed contracts with local coordinator and regional consultant. Selected two pilot sites on Futuna – coordination with climate change adaptation strategy and 2015-2030 territorial development strategy
<b>Pacific Island people reach their potential and lead long and healthy lives</b>			
<b>Public Health</b>			
Improved health and well-being of Pacific communities	PICTs develop public health policies, plans and regulations that respond effectively to national priorities	Ongoing	Technical support provided on surveillance and follow up of at risk population for diabetes

SPC expected contribution to national development goals			
Expected long term result (impact)	Expected medium term result (outcome)	Status	Outputs taking place or expected to commence this year
<b>The Pacific region and its people benefit from inclusive and sustainable economic growth</b>			
<b>Statistics for Development</b>			
Pacific national and regional statistics are accessible and are being utilised	PICTS are producing the agreed core set of statistics across key sectors including but not restricted to economics, population, CRVS, education and health, as required by their national plans and agreed upon regional and international reporting frameworks	On Track	National websites completed and upgraded with latest technologies
